Project Plan

Group 2 - Lucas, Noah, Shang, Siegfred

Week of Nov. 23 - Nov. 29 (**Design Phase**)
- Lucas/Shang/Siegfred: Put together product design as well as UI
- Noah: get Github access for everyone, help with design, set up kanban board

Week of Nov. 30 - Dec. 6 (**Development phase**)
- Lucas + Siegfred: Get database + battery API under control, ideally other main components if they are more difficult to implement, start integrating components
- Noah + Shang: Start implementing front end, app design

Week of Dec. 7 - Dec. 13 (**Development phase**)
- Lucas + Siegfred: Finish putting together back-end, debug and polish
- Noah + Shang: Debugging front end and linking to backend

Week of Dec. 14 - Dec. 16 (**Finishing touch, presentation phase**)
- Lucas + Noah + Shang + Siegfred: Make slides that we're all responsible for, finish presentation
